The Pixoroo Platform
One-stop shop for camera clubs and amateur photographers
Pixoroo is the latest platform built to support camera club/photographic societies and their members, in their passion to create, share and enjoy photography. Pixoroo enables photography clubs and societies to set up and run their club websites, club competitions, manage memberships, run international salons and circuits. Federations and other such organisations can run federation/championship style competitions involving member clubs and/or photographers. Pixoroo enables individual photographers to build their commercial or non-commercial photography websites.

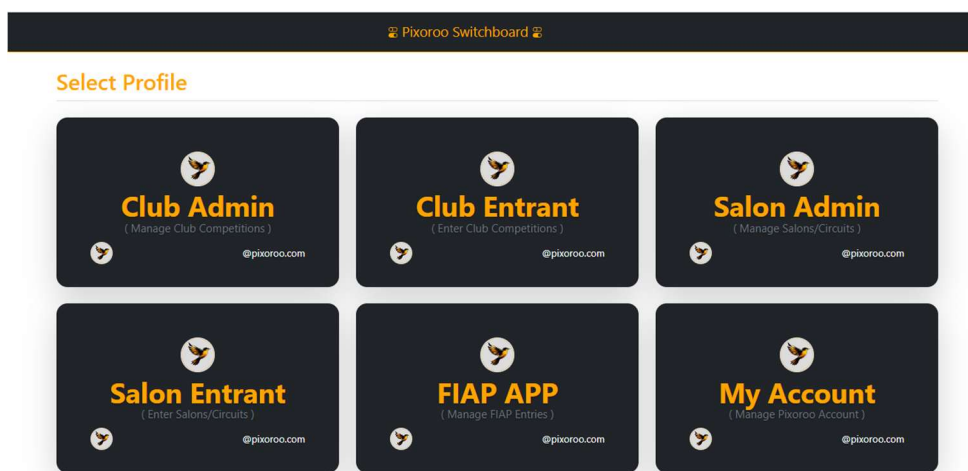

LOGIN PAGE

Put your email and password into the boxes and sign in.

PROFILE PAGE

You will be taken to a page listing the profiles you have in Pixoroo. This is called the switchboard. Depending on whether you only enter club competitions, or also enter salons or have anything to do with admin you will see a different set of profiles.

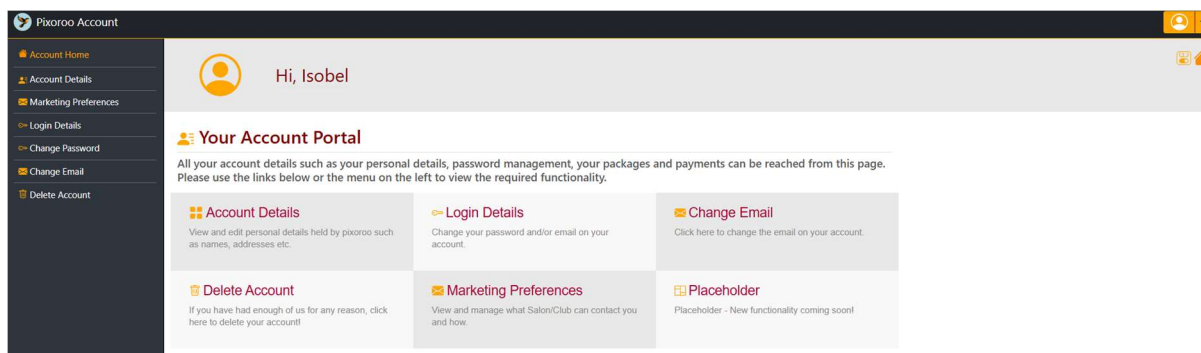

At any time you can log out via orange icon on the top right of every screen.

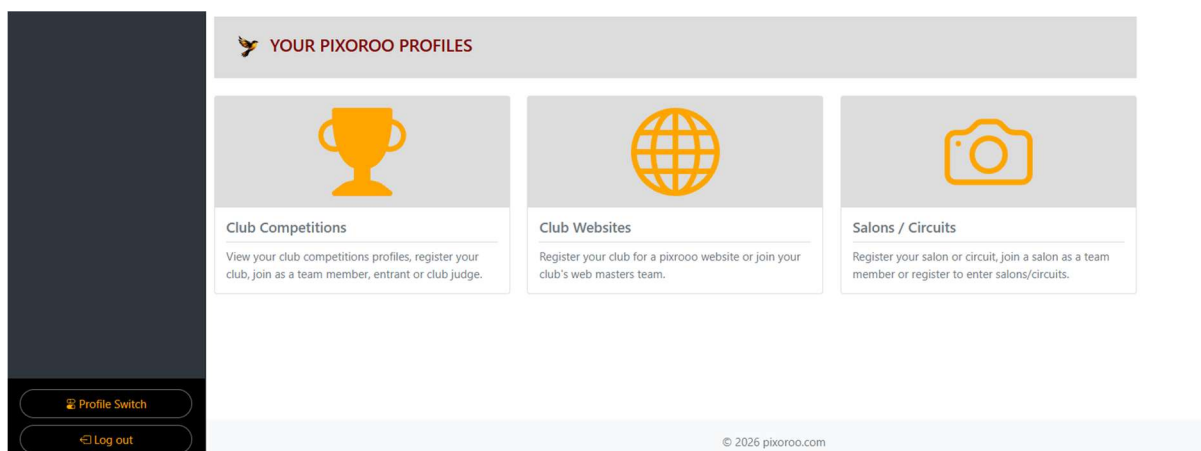

“MY ACCOUNT” Profile

This is where you manage your name, address password and other details about you on Pixoroo. The top left (next to the bird) tells you what profile you are in.

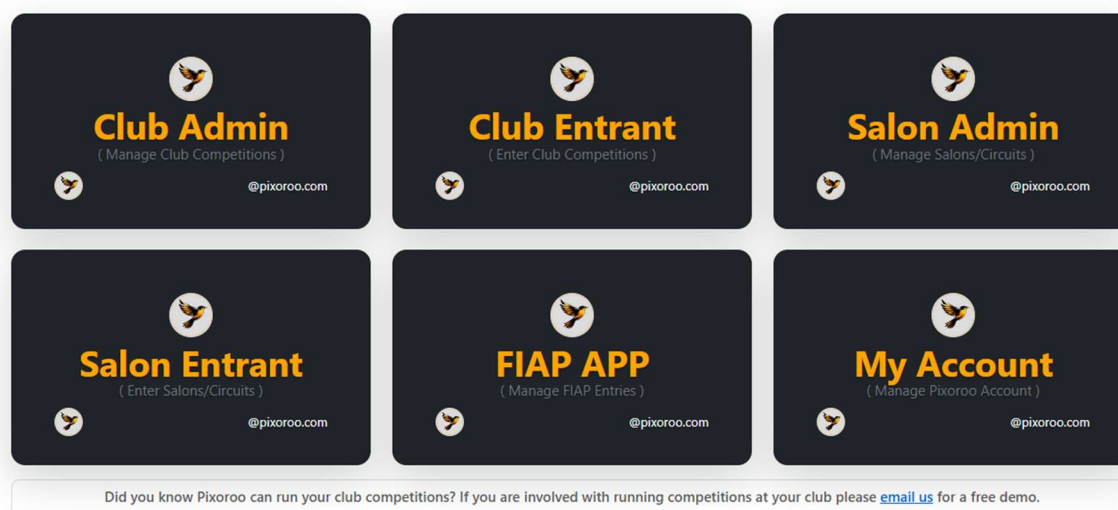

The bottom half of the page has information about your profiles and the button to go back to the profile page.

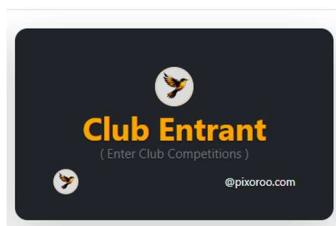

Click on 'Profile Switch' to go back to the switchboard showing the list of profiles to select another action.

TO ENTER A COMPETITION

Click on 'Club Entrant' in the switchboard.

You will be taken to the Entrants Portal which shows lots of information. There are two sections.

- The top section shows the EPS competitions that are currently open. It looks like there are two open, but, it is a single competition split by league. We will have two 'competitions' for each monthly competition to ensure we get the right results by league.
- The lower section are all the international salons currently open for you to enter as they are also on Pixoroo (including our own 5th EPS Digital Salon which is 6th on the list).

Upload Entries

If you are in the wrong league competition click 'Portal' and select the correct competition from the dashboard.

If you are in the right one – have a look at the rules (if there are any) and move the slider to accept them. You cannot enter without acknowledging that you've read the rules.

Click 'Upload Entries' and you will be given a page to enter your images. You can check the rules by clicking 'Comp Rules' tab at the top of the page. The number of spaces depends on the competition and in this case there are two spaces as you can enter 2 images into the competition. When uploaded the image will appear as a thumbnail and the title will appear.

Click 'upload image'.

You will see that both images have an exclamation mark (!) in circles below the titles. If you hover over them Pixoroo will tell you what's wrong. A lot of these are warnings to help you make your images better.

The Meeple has two warnings – one that the size isn't good enough (it's really small) and the second that the resolution isn't good enough either. In order to do well in the competition I should replace it with a larger image with better resolution.

Once you have resolved the warnings – or decided to ignore them click 'Complete' at the top or bottom of the screen.

You get a confirmation screen confirming what you have entered and what's in it. Make sure you check that the name in the Title field is what you want to use as if you have replaced the image it may not reflect the new image. If you need to change it click 'Review' to change it. When you are happy with your entry click 'Confirm'.

In this example I replaced the face with a flower – note that I forgot to change the title name so that reflects the name the face had and not the flower. To fix that I'd click review, change the name and then click 'complete' again. You'll get another email confirming your entry.
